The Intensive Reading Program by Heather Harvey is an Australian remedial literacy program designed to assist students with learning difficulties from years 5 - 10. The program works on changing a student's attitude towards reading, setting personal challenges, providing rapid success indicators and is specially designed to appeal to the student's age level.

The program has been successfully implemented at Hillarys Primary School for the past six years with outstanding rates of improvement in both attitude and literacy demonstrated. Pre - and post test results indicate significant improvements for the participating students with gains of up to four years within the nine week program. Sonja has also implemented this program in a secondary school setting with equally impressive results.
